Attachments to Private Sponsor Travel Certification Form

Robert Leonard	National Security Advisor	Senate Minority Whip Richard Durbin
Patrick Day	Counsel	Senate Judiciary Committee
Dan Lips	Policy Director	Senate Homeland Security and Government Affairs Committee
Julie Klein	Professional Staff Member	Senate Homeland Security and Government Affairs Committee
Chris Cook	Professional Staff Member for Subcommittee on Homeland Security	Senate Appropriations Committee
Andy Olson*	Senior International Finance Advisor	Senate Foreign Relations Committee

Attachment 2 – Question # 12 – Description of role of sponsor in organizing and conducting the trip

Software.org: the BSA Foundation is an independent and nonpartisan international research organization. This visit is an opportunity to share about the world's most innovative software companies and learn first-hand from leading industry experts about the industry's approach to cybersecurity. Software.org planned and organized all aspects of the trip, made lodging and travel arrangements, and corresponded with businesses involved to set up events and tours at each location. Software.org is the sole sponsor for this trip, including responsibility for covering cost of meals throughout the trip.

*The Senate Foreign Relations Committee (SFRC) will independently fund all travel costs and arrangements for Mr. Andy Olson. Software.org will purchase Mr. Olson's airfare and accommodations in a block with all other delegation participants, conferring a reduced rate. SFRC will reimburse the Foundation.

Attachment 3- Question # 13 – Description of stated mission of sponsor and how purpose of trip relates

Software.org: the BSA Foundation is an independent and nonpartisan international research organization that was launched in 2017 to educate policymakers and the broader public about the hugely positive impact that software has on our lives, our economy, and our society. With headquarters in Washington, DC, Software.org works to empower the workforce of the future and to help policymakers, stakeholders, and the technology industry look forward and prepare for the world of tomorrow.

In support of our policy agenda, Software.org is embarking on this trip as part of an ongoing effort to create more opportunities for education and providing hands-on experience to further congressional staff's understanding of the industry's approach to cybersecurity.

The trip to San Francisco will include unique visits to several global software companies. It is our goal that participants will gain greater insight into how the software industry is securing digital assets, innovating to adapt to the modern threat environment, and learn how public policy can play a role in enhancing our country's cybersecurity programs. This will be accomplished through site visits to the San Francisco and Silicon Valley locations of Adobe, Apple, DJU, IBM, Microsoft, Okta, Symantec, Workday including in-depth, on premises conversations with the company's senior cybersecurity experts.

We will also gain insight into Siemens's cybersecurity approach through a detailed conversation with their senior cybersecurity experts over dinner on October 22.

We have invited staff who work in the Judiciary, Foreign Relations, Homeland Security and Government Affairs, and Appropriations committees as well as Leadership offices in order to provide them with an in-depth conversation on the industry's approach to cybersecurity.

Attachment 4 – Question #14 – Description of sponsor's prior history of sponsoring congressional trips.

This is Software.org's sixth Congressional trip. Software.org is positioned to educate Congressional policymakers on cybersecurity and the software, data, and application economy by providing them with an opportunity to visit software companies to engage in high-level discussions with industry leaders.

Attachment 5 – Question #15 – Description of educational activities performed by sponsor (other than Congressional trips).

Software.org educates policy makers, stakeholders, and the general public at a global level through meetings and briefings, by developing and publishing studies and papers that explain policy and enforcement issues of interest to the software industry, by engaging the public through events and panels that reach wide audiences, and by partnering with leading organizations to support diversity, inclusion, and economic opportunity.

Attachment 6 – Question #20 - Reason for selecting hotel accommodations

We selected the Holiday Inn Sunnyvale because the rate meets the per diem rate and there is no minimum night stay. During our trip, a city-wide event in San Francisco is increasing hotel prices to \$200-300 over the per diem rate and requiring the delegation to commit to a three-night stay. The Hyatt House Emeryville was chosen as lodging for the second night of travel because of its proximity to companies we will visit on the third day of travel and because its rate (\$299) was closest to per diem.

Attachment 7 – Question #21 – Description of daily expenses compared to Federal Government per diem

Daily expenses for meals and other expenses will be at or below per diem rates. During our trip, a city-wide event in San Francisco is increasing hotel prices to \$200-300 over the per diem rate and requiring the delegation to commit to a three-night stay. The Hyatt House Emeryville was chosen as lodging for the second night of travel because of its proximity to companies we will visit on the third day of travel and because its rate (\$299) was closest to per diem.

Update — I'm going to send a confirmation email to the group, we're going with Monday Oct. 22 - Wednesday Oct. 23. Let me know if that causes issues for you and we'll troubleshoot. (Sunday start was best for the DC staff, but the Valley feels strongly about nixing that.)

Feel free to flag companies we should add —

Downtown
